

NITIN INDRA KUMAR SINGH

Thane, Maharashtra, India | 9005485337 | 31nitinthakur@gmail.com | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Software Engineer with experience building enterprise-scale web applications using ASP.NET Core, C#, React.js, and Next.js. Skilled in REST API development, database optimization, microservices architecture, and cloud-native deployment, with a track record of delivering insurance and employee-benefit platforms serving thousands of users.

EXPERIENCE

Full Stack Developer — Nivotime Pvt. Ltd.

Mumbai, India | May 2025 – Present

- Architected scalable REST APIs and backend services for policy management, claims processing, and document tracking using C#, ASP.NET Core, React.js, Next.js, SQL Server, and PostgreSQL.
- Built reusable React/Next.js components that cut feature development time by 30%, improving team velocity across product lines.
- Optimized SQL queries and database schemas, improving API response times by 35% and supporting high-volume transactional workflows.
- Deployed and maintained production systems on Linux and IIS, supporting 10,000+ active users with high availability and performance.
- Led full SDLC — design, development, testing, deployment, and post-release support — across multiple insurance and benefits platforms.
- Partnered with product, QA, and business stakeholders to translate complex requirements into scalable, production-ready systems.

PROJECTS

Insurance Brokerage System — Employee Benefits Portal

- Built a scalable benefits platform for policy access, claims submission, and status tracking, with secure authentication protecting policy and claims data.
- Designed RESTful APIs and real-time dashboards that improved policy visibility and operational decision-making.

HealthCROSS — Health Insurance Platform (Project Lead)

- Led development of a full-scale health insurance platform (Next.js, ASP.NET Core, C#, PostgreSQL), including a premium calculation engine and automated quotation system.
- Built client onboarding, policy enrollment, and digital e-card modules; coordinated tasks and led code reviews for a maintainable, scalable architecture.

IBNR — ICICI Document Tracing System

- Developed a document tracking and workflow system with real-time status visibility and structured PostgreSQL schemas for document lifecycle and audit-trail management.

TECHNICAL SKILLS

Languages: C#, JavaScript (ES6+), SQL

Frontend: React.js, Next.js, HTML5, CSS3

Backend: ASP.NET Core, REST APIs, Entity Framework Core, JWT Authentication, Redis, RabbitMQ

Databases: PostgreSQL, SQL Server

Cloud & DevOps: Microsoft Azure, Docker, Jenkins, CI/CD, IIS, Linux

Engineering Practices: OOP, DSA, SOLID Principles, Design Patterns, Microservices

Tools: Git, GitHub, Postman, Visual Studio, VS Code

EDUCATION

V.G. Vaze College (Mumbai University)

Mumbai, India | 2022 – 2025

Bachelor of Science in Information Technology | CGPA: 9.9 / 10
